In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

# Auditor's Responsibilityfor the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

E-mail : <u>amd@amd.net.in</u> Website : www.amd.net.in

As part of an audit in accordance with SAs, we exercise professional judgment and maintainprofessional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
  to fraud or error, design and perform audit procedures responsive to thoserisks, and obtain
  audit evidence that is sufficient and appropriate to provide a basis forour opinion. The risk of not
  detecting a material misstatement resulting from fraud ishigher than for one resulting from
  error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
  override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies
  Act, 2013, we are also responsible for expressing our opinion on whether the company has
  adequate internal financial controls system in place and the operating effectiveness of such
  controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis ofaccounting
  and, based on the audit evidence obtained, whether a material uncertaintyexists related to
  events or conditions that may cast significant doubt on the Company'sability to continue as a
  going concern. If we conclude that a material uncertainty exists,we are required to draw
  attention in our auditor's report to the related disclosures in thefinancial statements or, if such
  disclosures are inadequate, to modify our opinion. Ourconclusions are based on the audit
  evidence obtained up to the date of our auditor's report. However, future events or conditions
  may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including
  the disclosures, and whether the financial statements represent the underlyingtransactions and
  events in a manner that achieves fair presentation.

Materiality is the magnitude of the misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and

other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Our opinion is not modified in respect of these matters.

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

# Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31stMarch 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# e. Impairment of tangible and intangible assets

An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use i.e. the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognized.

# f. Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that the company will comply with the conditions attached to them, and the grant/subsidy will be received. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. Where the company receives non-monetary grants the asset is accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value. Government grants of the nature of promoters' contribution are credited to capital reserve and treated as a part of the shareholders' funds.

Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. # k. Taxes on Income

- a. Tax on income of the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961 and based on the expected outcomes of assessments / appeals.
- b. Deferred Tax is recognized on timing differences between the accounting income and the estimated taxable income for the year and quantified using the tax rates and laws enacted or substantially enacted as on the balance sheet date.
- c. Deferred tax assets, other than brought forward business loss and unabsorbed depreciation are recognized and carried forward to the extent there is reasonable certainty that future taxable income will be available against which deferred tax assets can be realized.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the company will pay normal income tax during the specified period. i.e the period for which MAT credit is allowed to be carried forward. In the year in which the company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the specified period.

# I. Segment Reporting

The company is operating in single segment and hence segment wise separate reporting as per AS 17 issued by ICAI is not required.

#### m. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders after deducting preference dividends and attributable taxes by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share spilt, and reverse share split consolidation of shares that have changed the number of equity shares outstanding without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

#### n. Provisions

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and are reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Where the company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

# o. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

# p. Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

q. Company has given corporate guarantee to Fable Food Products Private Limited for working capital facility granted by State bank of India and Dena Bank (now Bank of Baroda).

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

# Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting which are relevant to Financial Statement of **Aabad Marketing Private Ltd** ("the Company") as of 31st March, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

# Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls over Financial Reporting

MUMBA

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Financial statements have been prepared on an accrual basis. The accounting policies adopted in the preparation of financial statements are considered with those of previous year, except for the change in accounting policy explained below.

### 2.1 Summary of significant accounting policies

#### a. Use of estimates

The preparation of financial statements is in conformity with the Indian GAAP which requires the management to make judgments estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

#### b. Tangible fixed assets

#### a. Tangible Assets:

- Fixed Assets are capitalized at acquisition cost including directly attributable cost for bringing the assets to working condition for use.
- Expenditure relating to existing fixed assets is added to the cost of the assets, where it increases the performance / life of the assets as assessed earlier.
- Fixed Assets are eliminated from financial statements on disposal.

# b. Intangible Assets

Intangible Assets are recognized as per the criteria specified in Accounting Standard (AS 26) 'Intangible Assets" as specified in Companies (Accounting Standard) Rules, 2006.

Notes to Financial Statements For The Year Ended 31st March, 2022

### c. Depreciation on tangible fixed assets

Deprecation on fixed assets is calculated on a WDV method using the rates specified under the Schedule II to the Companies Act, 2013 arrived on the basis of the useful lives estimated by the management. The company has transferred excess depreciation due to the changes in rates of Depreciation as per Companies Act, 2013 to Reserves and Surplus.

#### d. Leases

### Where the company is lessee

Finance leases, which effectively transfer to the company substantially all the risks and benefits incidental ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule XIV to the Companies Act, 2013, whichever is lower. However if there is no reasonable certainty that the company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life asset, the lease term or the useful life envisaged the companies Act 2013.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

### e. Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a Substantial period of time to get ready for its Intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

Notes to Financial Statements For The Year Ended 31st March, 2022

### f. Impairment of tangible and Intangible assets

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use i.e. the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognized.

### g. Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that the company will comply with the conditions attached to them, and the grant/subsidy will be received. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over *the* periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. Where the company receives non-monetary grants the asset is accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value. Government grants of the nature of promoters' contribution are credited to capital reserve and treated as a part of the shareholders' funds.

#### h. Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

### m. Segment Reporting

The company is operating in single segment and hence segment wise separate reporting as per AS 17 issued by ICAI is not required.

#### n. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders after deducting preference dividends and attributable taxes by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share spilt, and reverse share split consolidation of shares that have changed the number of equity shares outstanding without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

#### o. Provisions

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and are reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Where the company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due
to fraud or error, design and perform audit procedures responsive to thoserisks, and obtain
audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies
  Act, 2013, we are also responsible for expressing our opinion on whether the company has
  adequate internal financial controls system in place and the operating effectiveness of such
  controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis ofaccounting and, based on the audit evidence obtained, whether a material uncertaintyexists related to events or conditions that may cast significant doubt on the Company'sability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Ourconclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including
  the disclosures, and whether the financial statements represent the underlying transactions
  and events in a manner that achieves fair presentation.

Materiality is the magnitude of the misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation

precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Our opinion is not modified in respect of these matters.

### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### 2.1 Summary of significant accounting policies

### a. Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

### b. Property, plant and equipment

- a. Property, plant and equipment :
  - Property, plant and equipment are capitalized at acquisition cost including directly attributable cost for bringing the assets to working condition for use.
  - Expenditure relating to existing Property, plant and equipment is added to the cost
    of the assets, where it increases the performance / life of the assets as assessed
    earlier.
  - Property, plant and equipment are eliminated from financial statements on disposal.

### b. Intangible Assets

Intangible Assets are recognized as per the criteria specified in Accounting Standard (AS 26) 'Intangible Assets" as specified in Companies (Accounting Standard) Rules, 2006.

Notes to Financial Statements For The Year Ended 31st March, 2022

### c. Depreciation on tangible fixed assets

Deprecation on Property, plant and equipment is calculated on a WDV method using the rates specified under the Schedule II to the Companies Act, 2013 arrived on the basis of the useful lives estimated by the management. The company has transferred excess depreciation due to the changes in rates of Depreciation as per Companies Act, 2013 to Reserves and Surplus.

### d. Leases

### Where the company is lessee

Finance leases, which effectively transfer to the company substantially all the risks and benefits incidental ownership of the leased item, are capitalized at the inception of the lease term at the lower of the fair value of the leased property and present value of minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance costs in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs of lease are capitalized.

A leased asset is depreciated on a straight-line basis over the useful life of the asset or the useful life envisaged in Schedule XIV to the Companies Act, 2013, whichever is lower. However if there is no reasonable certainty that the company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset, the lease term or the useful life of the asset, the lease term or the useful life envisaged the companies Act 2013.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

### e. Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a Substantial period of time to get ready for its Intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

The company has procured Secured loan for Construction of new plant. Interest paid on the same has been capitalized along with all the expenses till the plant and Machinery is put to use.

Notes to Financial Statements For The Year Ended 31st March, 2022

An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use i.e. the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognized.

### g. Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that the company will comply with the conditions attached to them, and the grant/subsidy will be received. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over *the* periods necessary to match them with the related costs, which they are indented to compensate. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. Where the company receives non-monetary grants the asset is accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value. Government grants of the nature of promoters' contribution are credited to capital reserve and treated as a part of the shareholders' funds.

Capital subsidy of Rs. 2,40,50,621/- is sanctioned on 7<sup>th</sup> May,2021. Out of which Rs.60,12,655/- is received during the F.Y. 2021-22. Notes to Financial Statements For The Year Ended 31st March, 2022

### p. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders after deducting preference dividends and attributable taxes by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share spilt, and reverse share split consolidation of shares that have changed the number of equity shares outstanding without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

# 4. SCOPE AND PURPOSE OF VALUATION

Based on discussion with the Management (includes board of both the amalgamating company and the amalgamated company), we understand that the Amalgamating Company and the Amalgamated Company are evaluating the possibility of amalgamation through the proposed scheme of amalgamation under section 230 - 232 read with section 66 and other applicable provisions of the Companies Act, 2013 and rules framed thereunder. The scheme proposes to amalgamate AMPL into FFPPL to inter-alia achieve administrative and operational rationalization by combining the financial and operation strength of both the companies through focused management and greater integration.

In this context, the Management requires our assistance in determining the fair share exchange ratio for the said scheme of Amalgamation. Under relevant regulations of the Companies Act, 2013 and allied rules, the Board of Directors of the Company appointed the Valuer through Board Resolution dated 12<sup>th</sup> March, 2022 and engagement letter dated 12<sup>th</sup> March, 2022 for deriving exchange ratio with respect to the scheme of Amalgamation between **AABAD MARKETING PRIVATE LIMITED** ("The Amalgamating Company") and **FABLE FOOD PRODUCTS PRIVATE LIMITED** ("The Amalgamated Company").

The scope of our services is to conduct a relative valuation of equity shares of AMPL and FFPPL and to recommend a Share Exchange Ratio to the shareholders of AMPI

The valuation is purely indicative and it is the prerogative of the Company to rely on the fair Exchange ratio of the Equity Shares and to decide upon the same. The exchange ratio may be higher or lower than our indicative analysis of value depending upon the circumstances and the industry practice. The final value is something that the management will have to decide upon.

### 7. BASIS OF TRANSACTION: PROPOSED SCHEME

The transaction contemplates a Scheme of amalgamation in terms of the provisions of Sections 230 to 232 read with section 66 and other applicable provisions of the Companies Act, 2013 and rules framed thereunder as follows:

Amalgamation of AMPL and the vesting thereof in FFPPL in accordance with the terms of the Scheme and pursuant to the provisions of section 230 to 232 read with section 66 and other applicable provisions of the Companies Act, 2013 and rules framed thereunder.

# 8. VALUATION METHODOLOGIES

The standard of value used in the Analysis is "Fair Value", which is often defined as the price, in terms of cash or equivalent that a buyer could reasonably be expected to pay, and a seller could reasonably be expected to accept, if the business were exposed for sale on the open market for a reasonable period of time, with both buyer and seller being in possession of the pertinent facts and neither being under any compulsion to act.

Arriving at the fair Share Exchange ratio would require determining the relative value of the business and the shares of the companies. These values are to be determined independently but on relative basis and without considering the effect of the proposed scheme of amalgamation.

Valuation of a business is not an exact science and ultimately depends upon what it is worth to a serious investor or buyer who may be prepared to pay substantial goodwill. This exercise may be carried out using various methodologies, the relative emphasis of each often varying with:

- whether the entity is listed on a stock exchange
- industry to which the Company belongs
- past track record of the business and the ease with which the growth rate in cash flows to perpetuity can be estimated
- extent to which industry and comparable company information are available.

The results of this exercise could vary significantly depending upon the basis used the specific circumstances and professional judgment of the valuer.

REGISTERET

There are various commonly used valuation method for valuation of shares. The application of these valuation methods depends upon the purpose for which valuation is done. In respect of going concerns, certain valuation techniques have evolved overtime and are commonly in vogue. These can be broadly categorized as follows:

### i. Cost Approach

The value arrived at under this approach is based on the audited financial statements of the business and may be defined as Shareholders' Funds or Net Assets owned by the business. The balance sheet values are adjusted for any contingent liabilities that are likely to materialise.

The Net Asset Value is generally used as the minimum break-up value for the transaction since this methodology ignores the future return the assets can produce and is calculated using historical accounting data that does not reflect how much the business is worth to someone who may buy it as a going concern.

# ii. Market Approach

### Comparable Company Market Multiple Method

Under this methodology, market multiples of comparable listed companies are computed and applied to the business being valued in order to arrive at a multiple based valuation. The difficulty here is in the selection of a comparable company since it is rare to find two or more companies with the same product portfolio, size, capital structure, business strategy, profitability and accounting practices.

Whereas no publicly traded company provides an identical match to the operations of a given companies, important information can be drawn from the way comparable enterprises are valued by public markets.

### Comparable Transactions Multiple Method

This approach is somewhat similar to the market multiples approach except that the sales and EBITDA multiples of reported transactions in the same industry in the recent past are applied to the sales and EBITDA of the business being valued.

### iii. Income Approach

### Maintainable Profit Method (Discounted Cash Flows – "DCF)

DCF uses the future free cash flows of the company discounted by the firm's weighted average cost of capital (the average cost of all the capital used in the business, including debt and equity), plus a risk factor measured by beta, to arrive at the present value.

Beta is an adjustment that uses historic stock market data to measure the sensitivity of the company's cash flow to market indices, for example, through business cycles.

The DCF method is a strong valuation tool, as it concentrates on cash generation potential of a business. This valuation method is based on the capability of a company to generate cash flows in the future. The free cash flows are projected for a certain number of years and then discounted at a discount rate that reflects a company's cost of capital and the risk associated with the cash flows it generates. DCF analysis is based mainly on the following elements:

- Projection of financial statements (key value driving factors)
- The cost of capital to discount the projected cash flows

### 12. OUR RECOMMENDATION OF SHARE EXCHANGE RATIO

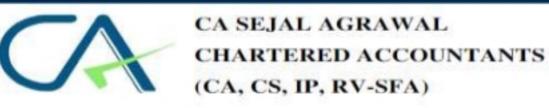

As per the scheme of amalgamation, in consideration of the amalgamation of the AMPL, FFPPL shall issue and allot equity shares to the equity shareholders of AMPL on the basis of share exchange ratio. The determination of share exchange ratio will require determining relative value of the shares of both the companies.

In order to determine the relative value of the companies, Net Asset Value (NAV) method has been used considering the nature of business of both the companies. Further, it is not possible to project the relative cash flows from the business of both the companies for sufficient period of time and considering the fact that both the amalgamating and amalgamated company are ultimately controlled by the same family group, the exchange ratio determined by NAV method will not be against the interest of shareholders Please **refer Annexure-1** summary valuation workings.

In view of the above and consideration of all the facts and circumstances as discussed above,

We recommend the Share Exchange Ratio as follows:

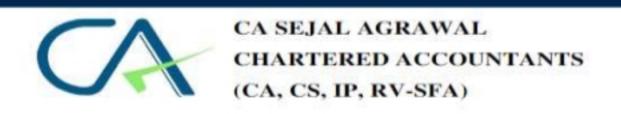

In respect of every 100 (One Hundred) fully paid up equity shares of Rs.10/(Rupees Ten Only) held by equity shareholders of Amalgamating Company,
3045 (Three Thousand and Forty Five) paid up equity shares of the face value
of Rs 10/- (Rupees Ten) each of the Amalgamated Company.
